Profile

AI-Focused UX Researcher & Designer with a B.S. in Interdisciplinary Studies (Specializing in Interaction Design & Innovation Strategy) from NYCU. Expert in bridging Python data modeling with empathetic UX research, as demonstrated in my startup, a sensitive UX project recognized by MediaTek, TSMC, and the CHI Student Design Competition. As a former intern in the Engineering Innovation Team at Logitech, I possess a proven track record of conducting Proof of Concepts and systematizing abstract innovation concepts into high-fidelity prototypes to facilitate internal R&D iterations. I am uniquely prepared to apply Responsible AI Design to streamline operational workflows for Lambton College's AURORA project, ensuring that digital solutions for Grants, Finance, and Business Development are both strategically aligned and human-centered.

Technical Skills

UX Design & Research	Figma, Adobe Creative Cloud(AI/PS), Responsible AI Design, Interactive Prototyping, Usability Testing
Data Analytics	Python (Pandas/Scikit-learn), Web Crawling, A/B Testing, API Integration, Data Modeling
Product Management	Innovation Strategy (PoC), Stakeholder Management, Agile/Scrum, Cross-functional Leadership
Systems & Strategy	Regulatory Compliance, System Roadmap, CRM Architecture, Community Strategic Growth

Accomplishments

- **ACM CHI Student Design Competition Finalist(2025):** Published research on empathetic UX and HCI-based design in the ACM Digital Library.
- **TSMC & MediaTek Awardee(2024):** 2nd Place & Grant recipient for research-driven MVP validation and strategic product roadmap.
- **FLL Asia Pacific Champion(2018):** 1st Place in international robotics; demonstrated technical fluency and engineering excellence.
- **Global Regulatory Engagement (2025):** Gained expertise in compliance through high-level research and engagement with CFTC & BlackRock in the USA.
- **Ministry of Education Outstanding Award (2023):** Led a fully-funded research delegation and designed board games for active aging in the UK and Denmark.
- **Taiwan Blockchain Influential 30 (2025):** Honoree for scaling a 3,000+ member community via CRM automation and strategic growth initiatives.

Professional Experiences

Scenario Lab Intern, Logitech, Hybrid, Taiwan

Mar, 2025 - Mar, 2026

- **PoC & Validation:** Executed 5+ PoCs and A/B tests to validate innovative technologies; defined functional requirements and key success metrics based on quantitative evidence.
- **UX Strategy (PB1-MP):** Visualized R&D concepts and software design via Adobe CC documentation to guide products from prototype to mass production.
- **Data Pipeline Automation:** Engineered Python-based web crawlers and visualization pipelines to process thousands of user feedback points, transforming raw data into strategic R&D insights for product prioritization.

CEO, Little Cloud Digital Support APP for Pregnancy, Hsinchu, Taiwan

Dec, 2023 - Oct, 2025

- **Software Product Design (MVP):** Software Design (MVP): Led end-to-end design to Figma-based MVP; validated market fit by gathering 150+ related early users and 5 strategic partnerships.

- **Empathetic Research:** Published qualitative research on pregnancy loss; developed Personas through in-depth interviews, followed by 2-phased validation to ensure design resonance.
- **Awards & Recognition:** Secured funding and awards from top-tier tech initiatives, including **MediaTek** (2nd Place, Social Innovation Competition) and **TSMC** (Youth Dream-Building Program Grant).

UX Designer, YoungFly Global Action Plan

Oct, 2022 – Oct, 2023

- **Inclusive Product Design:** Applied Universal Design and 3D printing to prototype an award-winning board game for the elderly; successfully deployed to 20 day care centers in Taiwan for daily use.
- **International UX Research:** Led a fully-funded MOE delegation to the UK and Denmark; interviewed 10+ international organizations to analyze cross-cultural user behaviors.
- **Top Performing Team:** Recognized with the Ministry of Education Annual Outstanding Award for social impact and design excellence.

User Growth Lead, Adou Crypto Trading Community, Remote, Taiwan

Sept, 2023 – present

- **Strategic Scaling:** Scaled the community to 3,000+ members; led growth initiatives that contributed to the community's recognition as an honoree of the 2025 Taiwan Blockchain Influential 30.
- **Retention Automation:** Architected a scalable CRM system and automated workspace flows via Python/API; reduced churn by translating user friction into automated onboarding strategies.
- **Data-Driven Tooling:** Directed the development of automated Discord bots and Smart Money tracking to drive engagement for a 200+ VIP member base.

Education

National Yang Ming Chiao Tung University (NYCU), Hsinchu, Taiwan

Bachelor of Science in Interdisciplinary Studies, Sept, 2021 – Jun, 2025

- **Awards:** NYCU Outstanding Contribution Award (2025), Arete Honors Program Outstanding Student Award (Fall 2024 & Spring 2025).
- **Relevant Coursework:** Web Design, Computers, Python Programming, Human-Computer Interaction, User Experience Design, Management, Economics, and so on.
