XR Interaction

3 Group Projects

Virtual Reality

Game Design

3D Environment Artist

UI Design

Group Project: 8 members

Narrative Interaction Design

Object interactions reveal memories and hidden narratives, enhancing immersion.

3D Art

Realistic architecture, textures, and props reflecting cultural aesthetics.

3D Environment

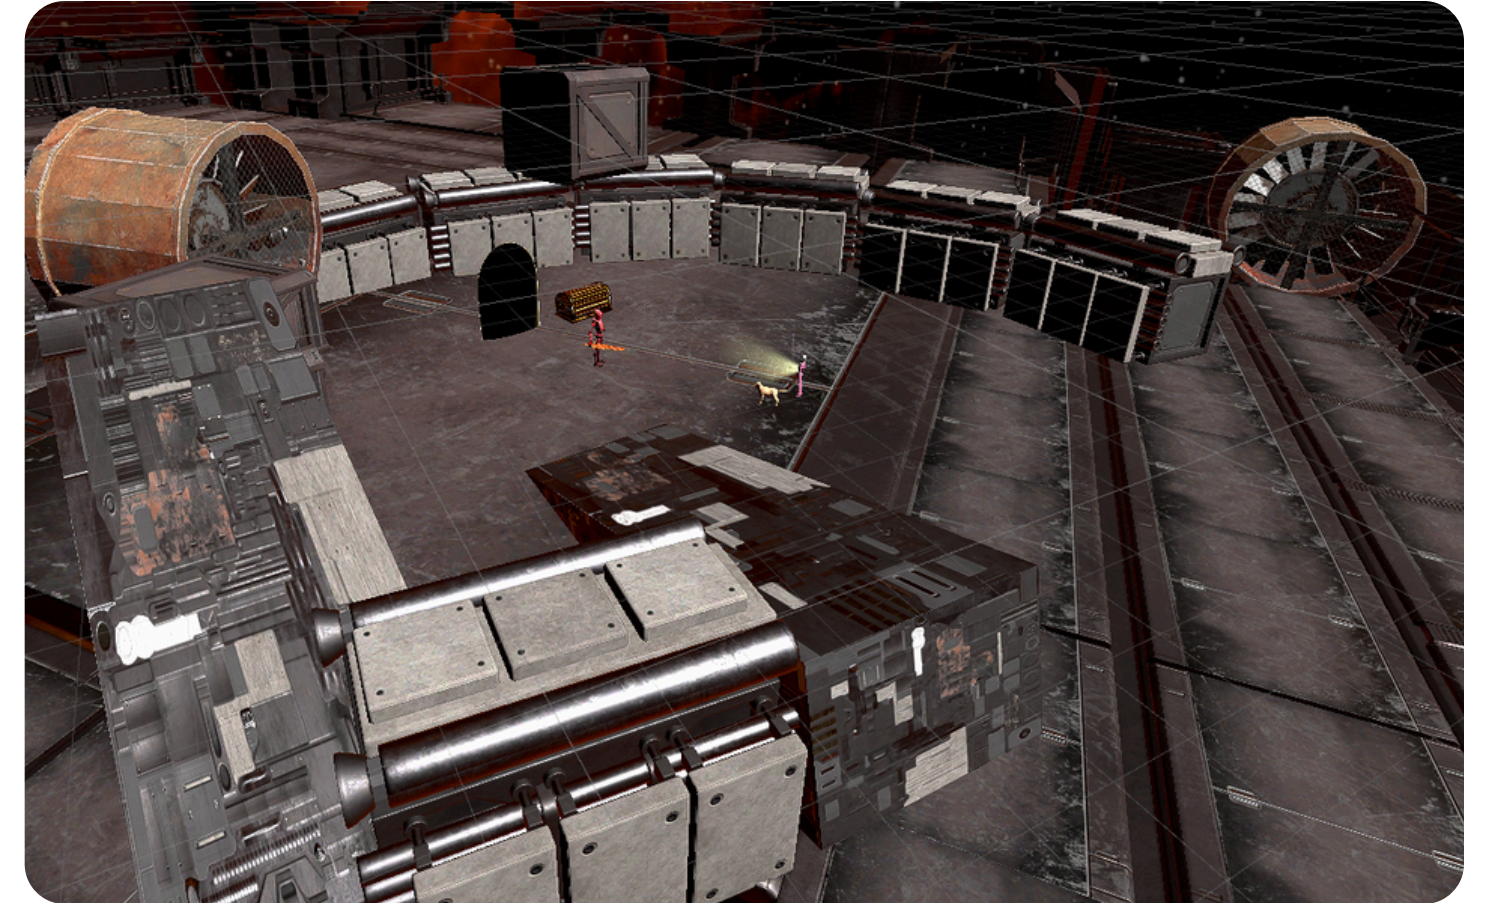

Group Project: 4 members

UI Design

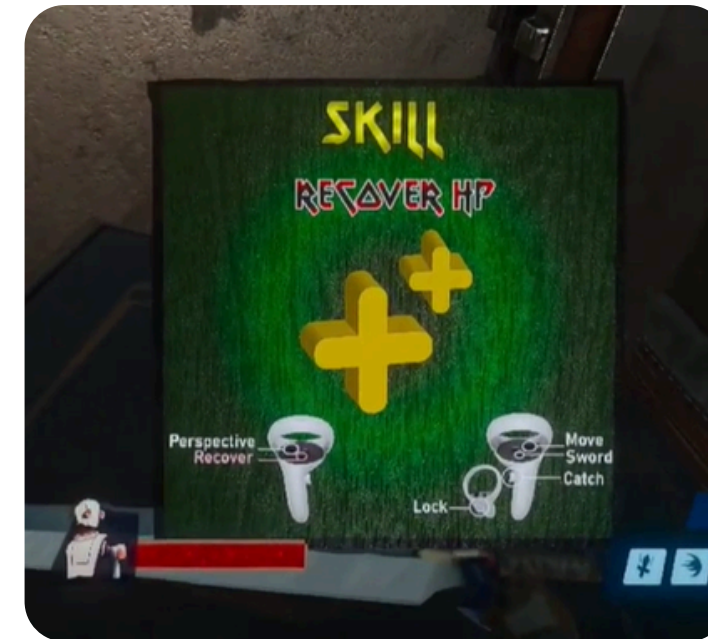

The team conducted in-house testing and adjusted the combat system, such as increasing the response time for thrust attacks and refining UI placement to enhance game flow.

3D Art

Create an environment with a combat atmosphere.

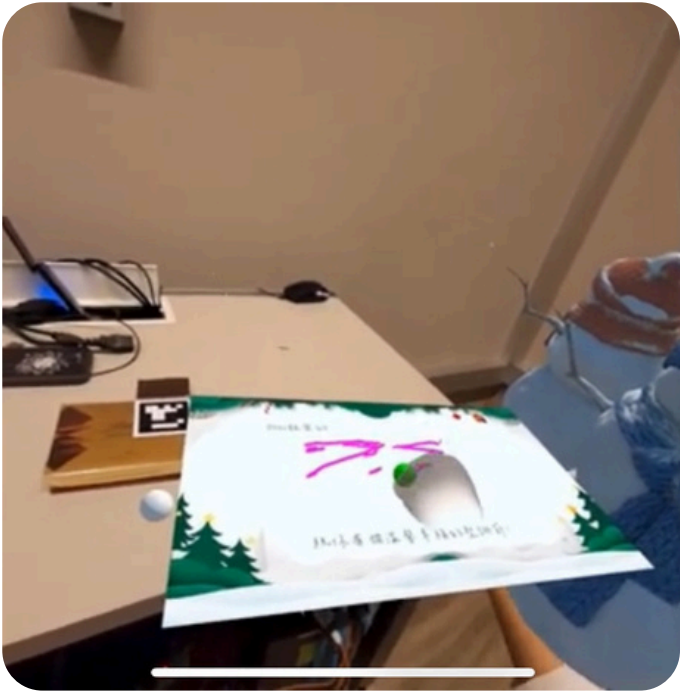

3D Environment

Group Project: 3 members

Mixed Reality Innovation

Designed a new chocolate-eating experience by ensuring virtual objects match real-world sizes, enhancing realism and tactile alignment

Interface Flow
